

Software Engineering: Tutorial 3

David Voigt

October 28th, 2022

Agenda

Use and understand Scala!

I have prepared three little exercises for you to choose from:

<https://github.com/dvdtvgt/scala-exercises>

1. Clone the repository locally
2. Create a new branch to work on one of the exercises
3. Run tests to check whether your solution is correct: `$ sbt` and then `testOnly BstTest`
4. Push your branch once your confident with your solution
5. Open a pull request

- <https://docs.scala-lang.org/scala3/book/introduction.html>
- <https://docs.scala-lang.org/cheatsheets/>
